Gedore Quickset Minor Metric FH Torque Screwdrivers

P.O Box 25898 Sharjah

United Arab Emirates

Quickset Adjustable Torque Screwdrivers achieve accurate torque application by eliminating both under and over tightening using Gedore TorqueÃ-¿Â½s proven slipping technology. This enables any user to deliver the correct torque with confidence regardless of task and operator skill levelFast and accurate to set, using the guick and clear to read micrometer setting scale. A visible scale allows the user to adjust the tool to their desired torque setting, enabling a range of different torque settings to be appliedEach single Adjustable Torque Screwdriver can cover a broad variety of applications due to their wide torque rangeLong service life is provided through the durable design utilising hard wearing materials such as stainless steel and aluminumIncreased operator comfort and productivity, from the smooth reset action of the tool and the ergonomic designRange: 20-120 cN.m
