

Gedore TLS 1360 FH Preset Torque Screwdrivers

Accurate process control is ensured by eliminating under and over tightening due to the proven Gedore Torque slipping technology. These versatile tools are ideal for a wide range of applications by offering both bi-directional and one way slipping actions. Lightweight aluminium construction and smooth reset action of the tool increases production efficiency by reducing operator fatigue. Range: 2.5-13.6 N.m

Specifications	Details
Product Number	015890
Brand	Gedore
Weight	325 g
Imperial	22-120 lbf.in
Range Metric	2.5-13.6 N.m
Model Number	TLS 1360 FH
Drive Size	1/4"
Colour	Blue
