

DWYER Digital Differential Pressure Gauge | Range 0 to 50 in wc | , 1/8 in Tubing, Back, LCD | DigiMag DM-1000

These gauges, also referred to as differential flow gauges, measure differential pressure in addition to the flow and velocity of air or gas across a system. They are frequently used to assess filter status, fan control, and static pressures in ducts and buildings because of their high accuracy.

| Specifications | Details |
|-----------------------|----------------------|
| Range | 0 to 50 in wc |
| Casing material: | Glass Filled Plastic |
| Operating Temperature | 0Â° to 140Â°F |
| Connection Size | 1/8" |
| Dial Size | 5â |
