

Elitech PGW-500 | Wireless Digital Pressure Gauge | HVAC 87 Refrigerants

You may search for data at any time and from any location with the aid of the wireless pressure digital gauge, which can collect data offline and automatically transfer the current pressure value to an app. You can program a high/low pressure alarm and get remote alerts when readings go over or below a preset threshold. Excel and PDF formats are available for exporting and saving the data. In order to minimize human mistake in calculations, super-heat and sub-cool can be computed automatically and obtained directly.

Specifications	Details
Pressure Range	0-500psi
Resolution	0.5psi
Accuracy	±0.5%FS
Measuring Units	psi, kg/cm ² , cmHg, bar, kPa, MPa
Battery Life	160 hours
Maximum Operating Pressure	750psi
Operating Temperature	-17.8°C-60°C (O°F-140°F)
Dimensions	127mmx73mmx37mm
