

Kennedy KEN2304435K | Cutting Disc | Inox, 60-Fine, 115 x 1 x 22 mm, Type 41 | Aluminium Oxide

Discs with Inox Cut-Off

Regarding stainless steel (free of iron, chlorine, and sulfur). Ten pieces in a bundle within a storage container for protection.

Flat-reinforced and depressed-center grinding discs

The "oSa" (The Organization for the Safety of Abrasives) seal of certification is now included on all Kennedy Depressed Center and Flat Reinforced Cutting wheels. "oSa" represents the top producers of abrasives worldwide. Using only oSa-certified rough grinding and cutting wheels is required in France. Similar to this, it is highly advised in Germany and Italy that abrasive materials meet the applicable EN criteria.
