

## Kennedy-Pro KEN5586920K | 165mm Side Cutters | 4mm Cutting Capacity

- produced with carefully chosen steels. With the least amount of work, the user may apply the maximum force thanks to the dual material grip handle design. Made with a soft thermoplastic shell for a comfortable, non-slip grip and a polypropylene core for strength and durability. Particularly appropriate for settings such as factory lines where monotonous labor is performed. Both the head and the joint are double polished. Cutting edges toughened by induction.
