

Engis 8-FS-35 5gm HYPREZ DIAMOND COMPOUND

Lapping & Pre-Polishing Hyprez Fivestar combined formula compound provides the unsurpassed cutting capability of natural diamond with the impact resistance of manufactured diamond. Formulated to withstand severe lapping conditions, the use of a stable carrier ensures sustained particle suspension throughout the process and an even surface coverage improving impregnation of laps. Suitable for use with Hyprez type OS (Oil Soluble) or Type W (Water Soluble) lubricants to meet specific requirements of material and surface finish. The Hyplicator dispensing syringe allows a precisely measured amount of compound to be applied, preventing contamination and wastage.

Specifications	Details
Product Type	<input type="checkbox"/> Diamond Compound
Weight	5 g
Product Number	104.103
SKU	ENG2571150GTSR
Colour	Red
Size	5g
Grain Size (Micron)	8
Concentration	FS-35
Brand	Engis
